KURUME AZALEA

Sweetheart Supreme—New Introduction

Registered with the S. A. F. and O. H.

We, as well as many other growers who have seen it in flower, consider this the most beautiful of all the Kurume Azaleas. It is a salmon pink in color and the buds open up to resemble the Sweetheart Rose, and expand to the mature stage with shell pink coloring. It is an ideal grower, has fine foliage and is an exceptionally good keeper. Plants in bloom from six to eight weeks are still presentable and salable. A seedling of the late A. Pericat.

This sensational new Kurume Azalea has been endorsed by prominent growers in every state in the Union.

We are booking orders for Spring Delivery.

HYDRANGEA—NORWOOD

New Introduction

This hydrangea was disseminated Spring, 1943. It originated with us and is a sport of Gertrude Glahn. It is an unusually strong grower and its natural color is bright pink, although with treatment it will become a remarkably good blue. This variety is easily distinguished by its ebony stem. It produces heads of unusual size, fine texture, and is the best keeping and lasting Hydrangea we have ever grown. The flowers petals do not drop, regardless of how long the plant is in bloom. It is not patented.

2½-inch pots, per hundred	15.00
Plants in bloom for Easter, per dozen	12.00, 15.00, 18.00 24.00, 30.00 & 36.00

Being a new introduction, it is slightly higher in price than other varieties and well worth the difference. Orders filled strictly in rotation for young stock.
